50% more CFM

More Hose.

Longer hose runs.

More tools.

Operates on dual 120 volt standard wall outlets.

Husqvarna S26 Pullman Ermator 967755701 HEPA Dust Collector Vacuum 258 CFM
230V

Single-phase HEPA dust extractor for use with hand-operated power tools to extract freshly cut, friable concrete dust. Great for small grinders, core drilling, power cutters, and handheld power tools.

All-around jobsite vacuum to pick up a variety of building materials and debris

Powered by a 3.4 HP, 10 Amp, 230V electric 2 motor system

258 CFM airflow

100in. water lift

The Husqvarna S26 Single Phase HEPA Dust Extractor is a 230V HEPA (available to plug into two standard 10 amp outlets) dust and silica extractor for use with hand-operated power tools to extract freshly cut, friable concrete dust and construction job site vacuum for picking up a wide range of building materials and debris. It comes set up with a Longopac bagging system that provides for 60ft. of continuous bags for disposal. HEPA dust extractors are equipped with tested and certified HEPA filters that trap the smallest, most dangerous-to-breathe dust particles and prevents them from being released in the air. A HEPA dust extractor not only exhausts perfectly clean air, it is far more efficient for the fast recovery of bulk dry dust, debris and other building materials found on every construction, abatement and restoration job site. Dual 10 amp vacuum motors.

What's Included

- (1) S26 dust extractor
- (1) 16ft to 25 ft. hose X 2" ID
- (1) Wand
- (1) Floor tool
- (1) Longopac system

Single-phase HEPA dust extractor for use with hand-operated power tools to extract freshly cut, friable concrete dust

- All-around jobsite vacuum to pick up a variety of building materials and debris
- Powered by a 3.4 HP, 10 Amp, 230V electric motor
- 258 CFM airflow
