we add 2 more years to upgrade the factory 1 year parts warranty.

S 36 is a very powerful 120 volt HEPA dust extractor to match the grinding machines  
Husqvarna PG 530 (1-phase), PG 450, PG 400 and PG 280 as well as small to mid  
size scarifiers, grinders, shot blasters and handheld power tools.  
This professional dust extractor is designed to meet strict demands.  
Three large, commercial-grade vacuum motors provide plenty of power.  
Equipped with three independently tested and certified HEPA H13 filters and a  
massive cone-shaped pre-filter with over 4.5 m<sup>2</sup> of media.  
This results in superior dust collection, even of fine sanding and gypsum dust.  
Features include Jet Pulse pre-filter cleaning, hour counter and vacuum meter for  
filter control.

The non-marking wheels are puncture free and lock at the front.  
The Longopac® bag hose system ensures simple, dust-free bag changes  
2" vacuum hose connection.

Optional

Equipment: Carpet Cleaning Machines > Vacuum Cleaners > HEPA Concrete Dust Slurry Hazmat Vacuums >

240 volt version can still operate on standard wall outlets.

No need to operate on a gasoline generator.

It is much easier to find two power cords drawing 14 amps 120 Volt each and than a single 240 volt outlet or even a single 20 amp 120 volt outlet.

Power Joiner Step Up Inverter Pressure Washer Converts Dual 20 amp 120 Volt outlets to 240 Volt 3 wire 15 amp L6-30R Reverse L6-30R

Plugs into every home, every business in the USA, Canada, and Mexico as they all have 15 amp outlets! Not every building has 240 volt or 20 amp outlets. Move up to the power of 240 volt vacuum, yet have an increased ease of plugging in.
