100 Grit Xtreme Soft 501899701 Gold Performance Redi Lock

Husqvarna G1415S Orange 3 PCS Diamond Grinding Single Segment
50 Grit Xtreme Soft 501899201 Gold Performance Redi Lock

Husqvarna G1413S Orange 3 PCS Diamond Grinding Single Segment 20 Grit Xtreme Soft 501897901 Gold Performance Redi Lock

SOLD IN 3-PACKS X 8 packs

- * X-Soft bond, made for very hard surfaces
- * Grit options from 20 / 30 / 50 / 100
- * Optional single or double segment
- * 13mm segment height

Benefits

- * Changing the size of the diamond grit to a smaller particle / grit size will affect the performance of the diamond tool in the following ways:
 - * Working with a single segment will increase the pressure on each segment.
 - * Working with a double segment will decrease the pressure on each segment, reducing the wear rate on the diamond segments. This will lead to a smoother scratch pattern, and will also reduce the load on the machine.
- * Half Set Diamonds placed at three alternating positions on the diamond holder disc (diamonds at four alternating positions).
- * Full Set Diamonds placed at each of the six positions on the diamond holder disc (diamonds at all eight positions).
- * Power and Weight - The power of the machine is a very important factor. A more powerful machine enables the operator to choose harder bond tools.
