Demo Husqvarna Pullman Ermator A2000 Used A1200 HEPA Air Scrubber
200900062A 967757408 120V 967664301A

Ermator air scrubbers are truly unique. They don't look like any other air scrubbers on the market today. Why? It's simple. Unlike competitive units, our air scrubbers are not designed using off-the-shelf components from the HVAC industry. Standard motor/blowers, coupled with 17-inch or 28-inch HEPA filters are fine for buildings, but when installed in a portable appliance, they tend to produce a boxy, bulky cabinet that's difficult to handle and transport. Our 1200 CFM air scrubber is constructed using specially designed components and materials, contributing to a superior form and functionality that will soon make other air scrubbers obsolete. They include individually tested and certified HEPA filters.

At 1,200 CFM, Model A2000 / A1200 is constructed with a unique motor/impeller and a wider HEPA filter producing a thin, lightweight cabinet that simply out maneuvers and out performs other air scrubbers in the market today. Model A1200 operates at two super quiet speeds of 600 and 1200 CFM. A metal frame HEPA filter includes a steel mesh screen to protect filter media and allow cleaning of the media surface with vacuum and dust brush. Each HEPA filter installed in the A1000 air scrubber is individually tested and certified at 99.97% efficiency at .3 microns. The primary filter is washable and an indicator light warns when it is time to clean or replace both filters. Equipped with two (2) locking wheels for superior transportation and stability. An optional discharge manifold for ducting is available.

Manufactures 1 year parts warranty.

Demo / refurbished / blemished means: might have blemish, scratch, rust, or dent, used at a trade show, tested in the showroom by a customer, last years model, return by shipping company, returned by customer, used by factory for R&D work, no factory box. Limited stock so if you purchase it and we cannot fill the order because another customer beat you to the bargain, your money will be returned. Please do not call to see if it is still available as if the web page is up and viewable, it is available this second. If you delayed and asked if it available so you let some other customer place the order ahead of you. All sales are final. Same factory warranty as brand new: 1 years parts! Extended the warranty to 3 or even 5 years for a little more with no hour exclusions.

Condition of this machine: "A+" Only 1 at this price!

Our demo equipment usually has less than 100 hours on it.

Photos are not available as these ship from the factory as this unit has already been tested, cleaned, new filters, and crated.

Ships from SATX warehouse.

Additional Features

Ten-Inch Exhaust: The optional eight-inch exhaust can be used to remove particles from tight spaces or other rooms than where the unit is placed.

Daisy-Chainable: Two onboard plugs allow for simple daisy chain action when needed.

Easy-to-Stack: Need to stack multiple units for a large job? In addition to its compact design, it comes with fold down handles and rubber feet for simple storage and stacking.

Built-to-Last: A protective cover slides over the filters to keep them safe during transport.

Locked in Filters: Filters easily lock in place but are simple to remove when needed.

Two Speeds: Choose between low speed (600 CFM) or high speed (1200 CFM) depending on the size and severity of the job.

Leak Notification: A light turns on if a leak is detected in the filters.

Hour Reader: Records the length of each job.

Filter Change Notification: When the HEPA filter is 75% clogged, a notification light turns on.
