

Model Number: 224003000

ProRestore 122877, Microban BotaniClean Thymol Antimicrobial, MB4002000, (5 Gallon pail)

ProRestore, 224003000

Manufacturer: Chemspec

Chemspec 122877 Microban BotaniClean Thymol Antimicrobial MB4002000 (5

Gallon Pail) 224003000

Antimicrobial/cleaner made with a unique thymol blend

A new solution from the name you trust – Microban!

Purely better - inspired by nature. Thymol produces a consistent product every time.

BotaniClean has demonstrated effectiveness against viruses similar to SARS-CoV-2 (as the surrogate for COVID-19) under the current EPA Emerging Pathogens Standard, so is included on List N: Disinfectants for Use Against SARS-CoV-2 (listed under EPA no. 34810-25).

With new BotaniClean less is more!

- No PPE required
- Clean, disinfect and deodorize in one easy step
- EPA Category IV rating, which means no "warning" or "danger" labels required
- No extraneous oils for a consistent, effective product every time
- No additional rinsing or wiping required*
- Approved for use on food contact surfaces*
- Mild, pleasant fragrance without harsh fumes
- Ready-to-use convenience and economical!

BotaniClean kill-claims include:

- Tuberculosis
- MRSA
- H1N1
- HIV
- Gram positive and gram negative microorganisms
- And much more!

Microban BotaniClean is a:

- Germicide
- Tuberculocide
- Fungicide
- Virucide
- Broad-Spectrum hospital-graded
- 224002000 Disinfectant

Microban BotaniClean

Sold in gallons and 4 gallon cases only	One gallon (3.8L) bottles
Case reorder no.	224002000
Appearance	Opaque clear liquid
pH	3.5 +0.5
Specific gravity	1.03–1.00 (H2O = 1)
EPA registration no.	34810-25-70385

Instructions

General cleaning and disinfecting directions: Gross filth and heavy soil must be removed before applying cleaning solution. Apply to surfaces by cloth, sponge, brush, coarse spray or by immersing equipment using cleaning methods. All hard surfaces must be wet thoroughly, and remain wet for at least 10 minutes and allowed to air dry. Thoroughly rinse all wetted and cleaned food contact surfaces with potable water. As the solution becomes dirty, discard and replace with fresh solution.

For complete use instructions and specific information about cleaning and decontaminating surfaces/objects please consult the label. BotaniClean is a great alternative antimicrobial, now with soft surface claims* Microban BotaniClean is an EPA-registered (34810-25-70385) broad-spectrum, hospital-grade antimicrobial that is an effective alternative to traditional antimicrobials. And we always knew it could be used to deodorize carpets, but now it's official. Here's an excerpt from the new label:

"Deodorizing and Cleaning of Carpet/Fabrics: To deodorize and clean carpets, fabrics, and other materials, Microban BotaniClean can be used on most fabrics that can be cleaned with water-based cleaners." *California, New York and Hawaii are still in the approval process for these claims.

Videos

All Virus supplies: All factories including Steambrite implemented an Allocation Policy back in March 2020 on select products in order to meet the high demand. We committed to significant inventory quantities in order to fill our supply chain pipeline, and shared items which are on allocation cannot be returned or cancelled.

Additional Information

It is a violation of Federal Law to use the product in a manner inconsistent with its labeling.
