

Model Number: C354

Mytee C354 Motor 115 volt CRB replacement Sold Each (2 needed per machine)

Manufacturer: Mytee Products Inc

Mytee C354 replaces discontinued C346 Motor 115 volt CRB replacement Each (2 needed)

Inline Planetary Gear Motor

6.7:1 ratio

115V

For CRB3010 and CRB3017 Manufactured post 2023-06 Carpet Sharks

If you own one of the above pre 2023-06 machines and need a motor you will also have to order CRB310 Chassis H936 or for CRB3017 Chassis H936A and double the order to two motors. Additional parts might also need to be required but have not personally performed this upgrade and Mytee has not posted in additional information about this issue either.

Non returnable part. All sales final.

I do not know what installation issues you might have with taking a C354 motor and putting in a C346 location!
