AS56A 1/4in Fip Insulated Safety Female Quick Disconnect Foster QD  
Samdx With Nipple Stop Carpet Cleaning Style Samdx AS56C

Video On Link

160 ft 1/4" 3000psi solution hose w/ 1/4 fixed MPT

Used in carpet cleaning and sewer jetting.

Single wire braid

Non marking jacket

Please note: one side of the hose is 3/8" MipX (swivel) and the other is 1/4" Mip

The swivel is designed to help with installation on a live reel so you do not have to twist the hose over itself during the installation.

Why 160 ft? This is because a Live Reel holds 160 ft of 1/4" ID solution hose. This matches what is usually installed on a live hose vacuum reel.

The live vacuum reel would have three fifty foot section of 2" ID hose along with a 10 ft leader of 1-1/2" ID vacuum hose. Then both hose sets match.

Usually filled in Blue color but color is not guaranteed.

Hose does NOT include 1/4" male quick disconnects.

These solution hoses are built for the most demanding pressure and heat requirements of today's high heat and high pressure truck mounts. These 1/4" solution hoses are rated at 3,000 PSI and 250°F. The steel braid construction gives the hoses both strength and flexibility. Plus, the composite rubber exteriors are non-marking, too. Solution hoses meet manufacturer's specifications for all high temperature truckmounts. Each 160' section includes male pipe fittings and protector sleeves on both ends.

- Rated at 3,000 psi and 250 degree F, this nonmarking hose will withstand everyday abuse
- Steel braid makes it tough and also very flexible
- Meets manufacturer's specifications for all truckmount high-temperature machines
- The 160' section includes protector sleeves on both ends and male
- Mates perfectly with 150 feet of 2" vacuum hose + 10 feet 1.5" leader vacuum hose system.
- 17.5 lbs
