VWT-50APO Vacuum Waste Tank

Super-Capable Sirocco Vacuum Waste Tanks can be used with just about any vacuum reclaim system for the management of huge GPM’s and lots of dirt-load capacity, without choking the vacuum!

FEATURES:
â—• 50 Gallon Roto-Molded XHD Polyethylene Tank (chemical resistant)
â—• 40+ gpm Influx Capacity
â—• Triple Inlets with Huge Inlet Basket Strainer
â—• Stainless Steel Cage Filter (to protect the vacuum)
â—• 2½" Vacuum Connection Barb for up to 600 cfm
â—• Dual Auto Pump-Outs each to 25 gpm (or 50 gpm open flow) with Check Valve and Camlocks
   This automatically pumps out when vacuum is running!
â—• 2-to-1 Adapter for Single Discharge Connection
â—• 36” Debris Screen (10 mesh)
â—• 1½" Drain / Cleanout with Ball Valve and Camlock Fitting
   Very easy to clean and flush!
â—• Preinstalled Super-Beefy Mounting Brackets
â—• Operating Instructions and Warning Sheets

SPECIFICATIONS:
â—• Dimensions: 58” x 25” x 46” (L x W x H)
â—• Power Requirements:
   â–ª 15 amps to start the Auto Pump-Out (or about 1500 generator watts)
   â–ª 6.3 amps to run the Auto Pump-Out
   â–ª Extension Cord Requirements (for starting current):
      • Use 12 gauge cord for 50 ft.
      • Use 10 gauge cord for 100 ft.

RECOMMENDED UPGRADES / ACCESSORIES:
â—• Discharge Hose
â—• Filter Bag (for dust)
â—• Additional Automatic Pump-Outs
â—• 3” Vacuum Connection Barb for up to 1200 cfm
â—• A variety of filters, internal and external to the Vacuum Waste Tanks are also available
