Features

- Dust collectors with primary and secondary filter housing for efficient containment of dust

- Compact and quiet vacuum units for both wet and dry applications

- Suction capacity and filtration technology for even the toughest jobs, effectively eliminating airborne dust

- The particle filtration rate is 99.9 % at 1 micron

- Robust machine with comprehensively tried and tested 3x1100 W motors

- Three stage filtration mechanism maximum protection for vacuum motors

- Electronic vibrator system for cleaning of filters

- Unique bag disposal system for containment of messy and hazardous substances

- Quiet in operation and compact in design

- Wet and dry applications

- Vacuum includes 27 ft., 3" hose that connects the grinder to vacuum and 200 dust bags

- Designed to plug into 220~240 V domestic /residential power supplies

- Washable polyester filters

- All metal super-industrial strength construction

DC 3300 Technical Data

Motor 3x, 1100 W, 4 hp. 16 Amps
Voltage 220 V, 1 Phase
Weight - 214 lbs
Product size - L x W x H 36 x 26 x 60 inch
Air Flow 325 cfm
Max. vacuum - 4.35 psi
Suction inlet diameter 3" (75 mm)
Primary filtration surface area - 11 square ft
Micro filter surface area - 11 square ft
