HydraMaster Evolution CSW-16 inch 6 jet 2in pipe Carpet Cleaning Titanium Wand With Molded Glide 000-163-054
Superior Carpet Wand Performance for Truckmounts

Description

The Evolution Wand is truly the next evolution in wand design and performance. The Aluminum tube and Rotomolded head make it extremely lightweight helping reduce fatigue on the technician. The sealed Delrin® glides help push the wand across the carpet, and are tapered to keep a good seal on the fibers.

No other tool has made such a dramatic increase in soil removal and water recovery. The laminar airflow design of the Evolution Wand has boosted the performance of some portable extractors from a bronze to a gold level of certification from the Carpet and Rug Institute's Seal of Approval Program for tested cleaning performance. The Evolution Wand will change the way carpets are cleaned.

Rotationally Molded Head, Titanium Shaft, Delrin Glide Carpet Cleaning Wand.

Designed for maximum corrosion resistance, yet 2 lbs. lighter than a 2" stainless steel wand!

The custom glide holder is rotationally molded into the head for an airtight fit of the custom glide that provides smooth operation on nearly any type of carpeted surface. Most importantly, the laminar air flow design delivers

Equipment: Carpet Cleaning Machines > Vacuum Cleaners > HEPA Concrete Dust Slurry Hazmat Vacuums >

superior water recovery by streamlining airflow and 6 spray jets provide optimum coverage and cleaning power.

U.S. Products takes carpet wand design to the next level with the Evolution. The Evolution carpet wand is light, durable, and more efficient than any other wand on the market today! Through scientific testing, the Evolution was designed to smooth airflow and boost water recovery performance. The rotationally molded head and aircraft aluminum tube combine to make a carpet wand that is about half the weight of most stainless steel carpet wands. Replaceable air tight Delrin[®] acetal glide and ergonomic design allow effortless glide across any type of carpet.
