Husqvarna CT48-8A Power TROWEL CT 48 8A w T-Handle 970465601

970 46 56-01
805544450904

Description

The Husqvarna CT 48 walk-behind trowels with a diameter of 122 cm are ideal for finishing medium-large areas. The trowels are optimally balanced, therefore they can be effortlessly controlled in the wide range of speeds. The transmission brake, electronic safety switch and engine speed sensor offer additional triple protection for the user. In an emergency situation the device will simply switch off and the handle will come to a stand-still after no more than a three-quarter turn. Furthermore, the unit will only start if the throttle lever is set to zero. This prevents an inadvertent rotation of the handle on start-up.
