

Model Number: 2A645

Watts 2A645 Pressure Regulator for Truckmounted Carpet Cleaning Machines PGR03

Manufacturer: Clean Storm

Watts 2A645 Pressure Regulator for Truckmounted Carpet Cleaning Machines PGR03

Pressure Regulator,  
Feed Water,  
Inlet/Outlet 1/2 In,  
FNPT Connection,  
Max Water Pressure 300 PSI,  
Max Temp 140 F,  
Material of Construction Brass,  
Height 4 3/8 In, Length 2 1/8 In,  
Gauge Port 1/4 In,  
Pressure Regulation 3 To 50 PSI

Please note: this works the opposite of a water faucet. Counter clockwise restricts the flow through the regulator.

Clockwise increases flow through the regulator.

Used to reduce incoming water pressure on many brands of truck-mounted carpet cleaning machines so as the inbound water is starved off the pumps looks for another source, mainly the chemical injection.

Also marketed under part number  
PGR03  
f5c56b52625a

Used for many years on SteamBrite, EZ Power, Amtex, and Chemtex truckmounts. Also used before many truck mounted water box mix tanks to help prevent overflow from weaker float shut offs or from high building pressure.

Sales tax collected in every state.
