The heavy-duty dust collection system is remarkably quiet and designed for multi-purpose use with medium to large grinding and polishing machines. The vertical profile is compact and offers great maneuverability with large wheels and two swiveling/locking casters. The ergonomic design also features easily accessible components for care and maintenance.

Constructed mainly of steel, the BDC-33 is built tough for professional use. The motor produces a maximum air flow of 300 cfm, with a maximum static pressure of 108. The easily replaced filters are ensured long life through the fully automatic, air-pulse cleaning system. The 200 lb. capacity wheeled dust-bin easily dismounts for quick debris disposal.

The BDC-33 is an advanced unit that helps eliminate most all of the airborne dust and particulate generated with grinding and polishing equipment. The PPT is equipped with a wheeled dust-bin that dismounts smoothly for quick debris disposal and with a capacity of 143 lbs. make those efforts infrequent. The BDC-33 is equipped with the Longopac® bagging system and is perfect for a clean disposal.

This powerful industrial vacuum is also perfect for contractors who must utilize a system that satisfies environmental concerns  
Unit can ship in any color but usually ships in the blue or red family (factory choice)
