family.

Description

The Blastrac BGS-250 is a single-disc concrete grinder especially designed for small to medium horizontal surface preparation applications. The BGS-250 is very easy and comfortable to use with low vibrations. The BGS-250 single disc grinder is dust free when connected to the appropriate Blastrac dust collection system. Blastrac has designed a full range of concrete grinders and diamond products, which give the opportunity to treat any floor and specific application. - Closed circuit which is dust free, when connected to an appropriate Blastrac dust collector. - Single-head grinding machine & Oslash; 250 mm. - Can grind right up to the edge. - Adjustable grinding depth. - No risk of underground deterioration. - User friendly and comfortable to use with low vibrations. - Compact and light: easy to transport and carry upstairs. Applications The BGS-250 concrete grinder is perfect for the surface preparation of small to medium floors, surface leveling, preparation before coating, and removal of coating defects or adhesives. The BGS-250 is also ideal for use with industrial flooring applications, concrete preparation, and decorative flooring. Diamond grinding segments are not included.
