

Model Number: 970516801

Husqvarna 970516801, 36V Battery LF 60i LAT Soil Compactor, 152Lbs 350mm Rammer, GTIN 805544289702

Manufacturer: Husqvarna Equipment

Husqvarna 970516801 36V Battery LF 60i LAT Soil Compactor 152Lbs 350mm

Product Description

Powered by our BLi-X 36V battery system, the LF 60i LAT forward plate produces no exhaust fumes, which can contribute to a cleaner working environment for the operator. The LF 60i LAT is ideal for hardscaping work on pathways and repair and maintenance work in areas such as driveways and parking lots. The application areas are compaction of thin to medium layers of granular soils and thin asphalt layers. Maintenance requirements are minimised thanks to the casted eccentric unit and together with a brushless motor, this means lower running costs. The charger and battery for the LF 60i LAT can be used together with multiple Husqvarna machines.

Manufactured in Bulgaria
