

Model Number: DBD2100PK

Abatement Technologies DELMHORST BD-2100 Moisture Meter DBD2100PK

Manufacturer: Abatement Technologies

Print Manual:

Evaluate Virtually Any Material for Water Penetration

The Delmhorst BD-2100 Moisture Meter is designed to measure and track the moisture level of structural materials such as wood, sheetrock, insulation, concrete, etc. The BD2100 is a penetrating meter with three scales to evaluate virtually any material for water penetration.

Outstanding features of the BD-2100 Moisture Meter include:

- Three scales in one powerful meter
 - Wood scale
 - Reference scale
 - Gypsum scale
- Easy one-hand operation
- Digital readout
- Proven micro-controller circuit
- Utilizes resistance technology recognized as the most accurate method for measuring moisture
 - One year warranty
 - Set-point moisture alert levels
 - Connector attaches to any available electrode for deep penetration.

Sales tax is collected for GA and TX unless you have a resale certificate on file that you are going to rent out this equipment.
